MHD

"Box in a Box" hinged lid design

Heavy gauge smooth sliding hinges designed and formed by Moore puts the MHD in a class by itself. This new hinge mechanism provides installer safety and smooth operation while enhancing the durability of the hinge. The enclosure can be mounted with the lid off. After installation of the MDU cable components, the hinges are engaged with hardened steel bolts and lock nuts. Expect higher security and additional safety from Moore's MHD.

STANDARD DIMENSIONS

Width	Height	Depth	Part No.
12"	12"	8"	MHD12128
12"	15"	8"	MHD12158
14"	14"	8"	MHD14148
12"	18"	8"	MHD12188
15"	18"	8"	MHD15188
18"	18"	8"	MHD18188
18"	24"	8"	MHD18248

CUSTOM SIZES ARE AVAILABLE

MBE • Backless, expandable option to MDU enclosure

This innovative NEW backless and expandable security enclosure provides an unprecedented level of flexibility for the changing needs of communications network customers. The unique design of the Moore MBE allows you to upgrade or expand the size and security level of your existing enclosure **without ever interrupting service to your customers**. Simply start by securing your mounting plate

to the wall of your building and add on as much or as little as you choose. Upgrading size, upgrading security or replacing damaged enclosures has never been easier. The MBE feature can be applied to any of our existing MDU enclosures with the exception of the FIP boxes. Consult a Moore representative to determine the best MBE security enclosure for your project.

Example: MHD BE backless expandable enclosure with sliding tap rack and Riser Guard knockouts.
